ChatGPT doing Y9 homework
(Write a rap about the noble gases)

Helium's the first, it makes your voice go high,
Balloon in hand, it's gonna reach for the sky,
Neon's next in line, lights up the city night,
Bright and colorful, it's quite a sight.

(Chorus)

Noble gases, they don't like to bond,
Stable and unreactive, yo, that's their bond,
In the periodic table, in group 18,
They're the real deal, know what I mean?

This is AI? What's the problem?

Jack, aged 7, shines brightly as a diligent worker and cherished friend among his peers. His commitment to learning is truly inspiring. In phonics, Jack is making impressive strides. He eagerly engages in phonics activities, showing a keen interest in mastering letter sounds and blending words. His enthusiasm for learning new phonics skills is evident in his focused participation during lessons.

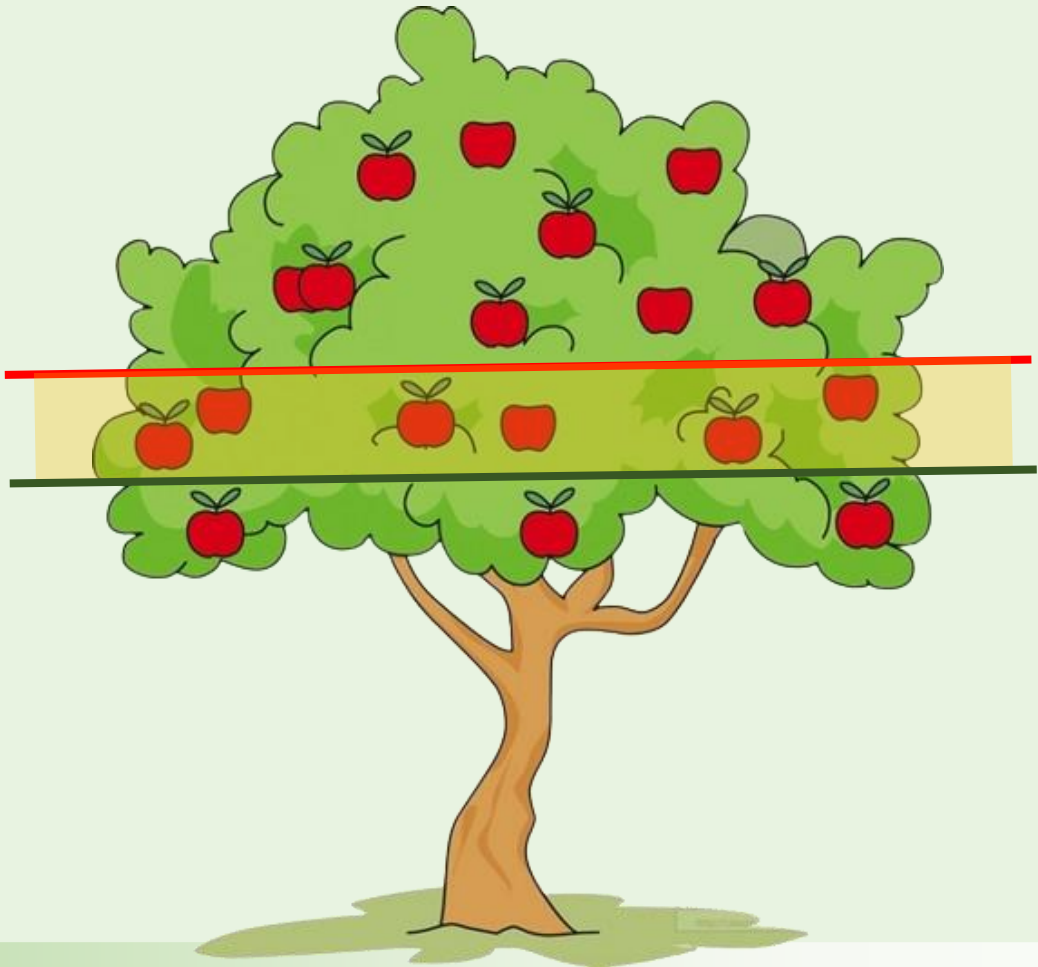

Moreover, Jack's amiable nature fosters a warm and inclusive classroom environment. He is admired by his classmates for his kindness and willingness to help others. Jack's positive attitude and friendly demeanor make him a joy to be around.

In all aspects, Jack's dedication and affable personality contribute positively to our classroom community. His eagerness to learn and his ability to support his peers

Back to the FAQ – What about Privacy?

The apple tree analogy: a clear way to explain the 'rules' to our colleagues.

**It is unsafe to reach these until a ladder is in place.
However tempting... However juicy... Don't.**

If you aren't sure if you're overreaching – Don't do it!

You can use AI now for the low hanging fruit. Go for it!

Back to the FAQ – What about Privacy?

The apple tree analogy: a clear way to explain the ‘rules’ to our colleagues.

The step ladders might be:

- IT systems
- Policies that better reflect the challenges of AI.
- Better understanding of ethics
- Guidelines for staff.

But we're still working on the details and will be for a while.

Once the ladders are in place, we can yield more. But probably still not all.

Onwards and upwards – but with “quality and care.”

What does the UK GDPR say?

Personal data is defined in the UK GDPR as:

“personal data” means any information relating to an identified or identifiable natural person (‘data subject’); an identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person”.

This means personal data has to be information that relates to an individual. That individual must be identified or identifiable either directly or indirectly from one or more identifiers or from

What are the ‘special categories of personal data’?

The UK GDPR singles out some types of personal data as likely to be more sensitive, and gives them extra protection:

- personal data revealing **racial or ethnic origin**;
- personal data revealing **political opinions**;
- personal data revealing **religious or philosophical beliefs**;
- personal data revealing **trade union membership**;
- **genetic data**;
- **biometric data** (where used for identification purposes);
- data concerning **health**;
- data concerning a person's **sex life**; and
- data concerning a person's **sexual orientation**.

...guidance we refer to this as ‘special

A diary entry for Macbeth

Write a diary entry for Lord Macbeth (for the day after Banquo was killed on his orders). Write it in a modern style. Use up to 4 paragraphs.

Dear Diary,

Today, as I sit here in the aftermath of last night's harrowing events, a profound sense of remorse washes over me. The darkness that now engulfs my soul is suffocating, as I grapple with the realization that I am responsible for Banquo's untimely demise.

The night unfolded in a dreadful manner. I had given orders for Banquo to be killed, driven by a combination of fear and ambition. My thirst for power blinded me to the weight of my actions, and I find myself haunted by the image of his life extinguished before my very eyes.

Though I did not physically carry out the deed, the burden of guilt rests heavily upon my shoulders. I can no longer deny the monstrous transformation that has taken hold of me. Ambition has twisted my once honourable intentions into a treacherous path, leading to the destruction of friendships and the descent into darkness.

As I reflect upon the banquet that followed Banquo's murder, I am sickened by the facade I was forced to maintain. I am now trapped in a web of lies and deceit.

Yours tormented, Lord Macbeth

Opening: Dear Diary

Four paragraphs

1. Setting out mood
2. Describing events
3. My feelings on the events.
4. Final reflections on regret.

Closing line

Could it improve inclusion?

Imagine you are a Y4 teacher. Write a word bank of 10 or so key words that children might need when writing a non-fiction text about the origins of Lego. For each word (or term), give a short definition or explanation of it. Use simple language that is suitable for a 7 year old. Present this in a table.

Lego Origins: Word Mat

How many of these will you use in your non-fiction text?

Word	Explanation
LEGO	A type of toy made of small plastic bricks that fit together.
Ole Kirk Christiansen	The man who started LEGO. He created the first LEGO bricks.
Bricks	Rectangular blocks used to build with LEGO.
Denmark	The country where LEGO was invented.
Toy	An object or plaything that children use to have fun.
Construction	The act of building or putting things together.
Imagination	Using your creativity and ideas to create new things.
Play	Engaging in activities for fun and enjoyment.
Invention	The creation of something new or unique.
Interlocking	How LEGO bricks fit together securely.

English / PSHE (Y1/2)

A Recipe for Friendship

You are a Y2 teacher. Write a very simple recipe for friendship that's suitable for readers aged 6 and mainly uses words easily decodable using phonic knowledge that 6 year olds have.

Recipe for Friendship

Ingredients:

Smile	Share	Help	Listen
Play	Kind	Friends	Fun

Instructions:

1. Put on a big smile and show it to others. A smile makes everyone feel happy!
2. Share your toys and things with friends. Sharing is caring!
3. Help your friends when they need it. Lend a hand and be kind.
4. Use your ears to listen carefully when friends talk. Listening shows you care.
5. Play and have fun together. Play games, run, and laugh!
6. Be kind to others. Say nice words and do nice things.
7. Friends are special. Treat them with love and respect.
8. Enjoy the fun times and make memories with your friends!
9. Remember, friendship is like a special recipe that needs all these ingredients to make it wonderful. Keep being a good friend, and your friendships will grow strong and last a lifetime!

English / Phonics (UFS/KS1)

Structure a Phonics Parent Workshop

You are a Foundation Stage teacher. Draft the structure for a 40 minute phonics workshop for parents of 5 year olds. The goal is to enhance parents' skills to support their child's progress in reading. Make it as engaging as possible.

Title: Phonics Workshop for Parents: Empowering Your Child's Reading Journey

Duration: 40 minutes

Workshop Structure:

Introduction (5 minutes)

- Warm welcome and introduction of the workshop facilitator.
- Briefly explain the importance of phonics in early reading development.
- Emphasize the role of parents as key partners in supporting their child's reading progress.

Phonics Overview (10 minutes)

- Provide a concise overview of phonics and its relevance in learning to read.
- Introduce key phonics concepts, such as letter sounds, blending, and segmenting.
- Share the benefits of a systematic and synthetic phonics approach.

Interactive Activity: Phonics Sounds (15 minutes)

- Engage parents in a hands-on activity to practice phonics sounds.
- Provide a set of flashcards or phonics sound cards.

Could it help teacher work-life balance

1. Mark work?
2. Moderate work?
3. Write schemes of work?
4. Write letters to parents?
- ~~5. Write school reports?~~

Can help with non-work tasks?

My love,

You are my sanctuary, bringing peace and completeness to my life.

In your embrace, I find solace, and your unwavering support anchors me through life's challenges. Your love brightens my world, filling my heart with joy and warmth.

I cherish the love we share.

Yours always,

[Your Name]

X X X

Happy Valentine's Day

Let's look at some school examples

1. Go to **9000lives.org**
2. Click ***Blog***

3. Click on ***How can schools use Chat GPT to make the world better for pupils?***
4. Scroll down to find ***Chat GPT guides for Schools*** and open the one for your school type.

So far...

AI has text and image making tools that make long tasks simple.

It's already being used in schools.

Can be used to write students work, teachers to create documents and create images of other children.

Can be used to mark students work, create documents and save teacher hours.

Now... reading (booklet) or playtime

Let's Play

Any school: EYFS/KS1/2

A poem in the style of Roald Dahl to mark the retirement of Mrs Ward, Teaching Assistant at Prince Avenue Academy for 26 years.

Holt Farm: Y4 history

A quiz on the Ancient Greeks for Year 4 pupils.

Rochford: Y1/2

Write a word bank for Year 2 children, who have SEND, to use when writing a fact sheet about Australia. The word bank will have 8 words and very simple definitions (reading age of 6 or less).

SEND Support

Write a 66 times tables sums using the 2, 5, 10, 3 and 4 times tables only. Don't include the answers.

Any School: Letter Drafting

Write a letter for primary school children to advertise Jeans for Genes day. Use a reading age of 6 or less. Students have to bring in £1 donation so that they can wear their jeans. It will be Tuesday Sept 17th 2024.

Y6: Lent

A diary entry for Jesus going into the desert using a reading age of 11 or less. Include similes, personification, metaphor, and sensory imagery.

Hadleigh: Y5 Science

The learning outcome for a series of science lessons is to "Explain what gravity is and its impact on our lives". Write instructions for a pendulum experiment to be used in one of the lessons.

Thinking Long Term

Will advancements in computer brain power solve problems like cancer?

- Could the first person to live to 200 have already been born?
- Could the first person to live to 200 could be someone in this room?

Could 'work' be something that becomes obsolete during the lifetimes of our pupils?

- Could they end up with a life of arts, dance, singing, socialising based on a universal basic income?

Will SEND become extinct...

Thinking Long Term

Dylan William did a paper on the future: <https://osf.io/preprints/edarxiv/372vr>

“The Future of AI in Education: 13 Things We Can Do to Minimize the Damage”

<p>Scenario 3: Transhumanism where we upgrade our brains.</p>	<p>We choose to upgrade ourselves through brain-computer interfaces to compete with the machines and remain in the driving seat.</p> <p>---</p> <p>We think this scenario is possible in the longer term – beyond 2045 – as brain-computer interfaces become less invasive and more sophisticated. But as we become more ‘machine-like’ in our thinking, we may be threatened with potentially losing our humanity in the process.</p> <p>There would also no longer be any need for schooling or university, because we could ‘download’ new skills from the cloud.</p>
--	--

No one can be sure how this pans out.

Thinking Long Term

What	Explained in lay terms	When is it expected
AI Artificial Intelligence	When AI can do lots of thinking.	It's here already.
AGI Artificial General Intelligence	When an AI can accomplish any intellectual task that a human can.	2040 – 2050 But a breakthrough could be as soon as 2025.
ASI Artificial Super Intelligence	When an AI has the cognitive power of every single human who has ever existed. Described as 'God in a Box' (Kurzweil, 2013).	2060.

No one can be sure how this pans out.

Can it attract parents to coffee mornings?

You
you are a senco and expert social media marketer. Write 3 engaging social media posts that will attract parents to your coffee morning on reading with pupils. It will be on Wednesday 13th March 9.00 - 10.30 with hot drinks and cakes provided. Be sure to outline benefits of coming along.

ChatGPT

Post 1:

📖☕ Parents, join us for a delightful morning of reading and relaxation at Titan Academy! Dive into stories with your child on Wednesday, March 13th, from 9:00 AM to 10:30 AM. Enjoy hot drinks, delicious cakes, and quality time together. Discover how reading can ignite your child's imagination and boost their literacy skills! RSVP today!

Post 2:

☕📖 You're invited to our special Coffee Morning on Wednesday, March 13th, at Titan Academy! Indulge in warm beverages, scrumptious cakes, and the joy of reading with your child from 9:00 AM to 10:30 AM. Explore the benefits of shared reading and learn practical tips to support your child's literacy journey. Join us for a morning of bonding, learning, and fun!

Post 3:

📖❤️ Book-loving parents, join us for a cozy Coffee Morning dedicated to the joy of reading with your child! Mark your calendars for Wednesday, March 13th, from 9:00 AM to 10:30 AM at Titan Academy. Sip on delicious hot drinks, savor delightful cakes, and discover the wonders of reading together. Enhance your child's literacy skills while creating precious memories! Reserve your spot now – it's going to be a morning to remember!

Can it draft advice?

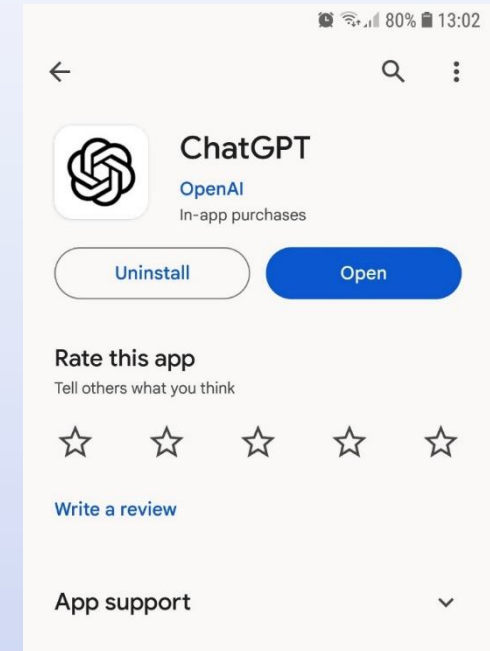

Advice for Communicating with Pre-verbal Pupils

1. Use Makaton: Makaton supports communication through signs and symbols, aiding comprehension and expression.

2. Use Reduced Language: Simplify sentences and use visual cues. Example: "Time for snack" instead of "It's time for us to have a snack." This helps pre-verbal pupils understand and respond.

3. Provide Processing Time: Allow pauses after speaking to give pupils time to process information. Pre-verbal pupils may need extra time to understand and formulate responses.

4. Intonation: Use varied intonation and facial expressions to convey meaning and engage attention. This helps maintain interest and understanding in communication exchanges.

Can it read policies & tell me what's important?

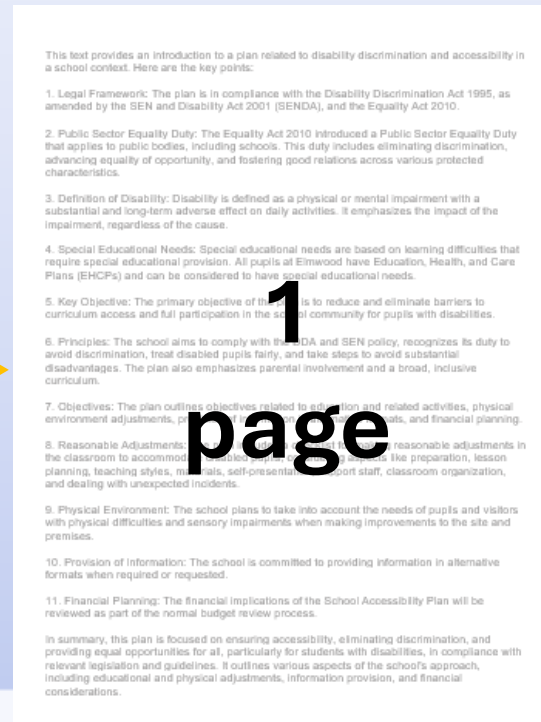

It depends how long the policy is.

< 3000 words, you can normally do in GPT 3.

> 3000 words, you need to split it in two parts and ask it to summarise them one at a time.

Or, you can pay for GPT 4 (allowing you 25,000 words in the prompt) @ £16 per month.

www.9000Lives.org
Twitter: @9000Lives_org

Challenge: Could it improve a policy?

"We want to make sure that you love learning and become curious, independent thinkers.

This means we encourage you to ask questions, take risks with your learning, think in creative ways, and not worry about making mistakes.

Learning isn't just what happens in class – it's everything you learn at school, like in events, daily routines, and even outside the classroom.

We want all of this to fit with what our school stands for and what we want to achieve."

How might you use AI in your role?

5. ???

4. ???

3. ???

2. ???

1. ???

How might a school get started?

5. CPD for teaching and non teaching staff, to include rules (e.g. no personal info, can it be used for report writing etc).

4. Working group to spend three weeks researching, then feedback to the group. Group agree feasible action plan including a plan for sharing their learning to staff.

3. Working group meet and agree key themes to focus on (e.g. Attainment & Inclusion, Staff Workload, Effective Roll Out, Safeguarding).

2. Seek volunteers for a working group.

1. Discuss AI with computing lead.

How does any of this help MY workload?

GIVE A MAN A FISH
AND HE WILL
EAT FOR A
DAY

TEACH
HIM HOW
TO FISH
AND YOU GET
RID OF HIM
FOR THE WEEKEND

What themes might my school need to consider?

How might a school get started? (for Operational Leaders)

5. CPD for teaching and non teaching staff, to include rules (e.g. no personal info, can it be used for report writing etc).

4. Working group to spend three weeks researching, then feedback to the group. Group agree feasible action plan including a plan for sharing their learning to staff.

3. Working group meet and agree key themes to focus on (e.g. Attainment & Inclusion, Staff Workload, Effective Roll Out, Safeguarding).

2. Seek volunteers for a working group.

1. Discuss AI with computing lead.

1. Attainment & Inclusion
2. Staff Workload
3. Safeguarding
4. Effective Roll Out

www.9000Lives.org
Twitter: @9000Lives_org

1. Attainment & Inclusion

1. How AI might help to improve pupil outcomes?
2. Do we, as leaders, have a vision for AI being used to improve student outcomes, for example:
 - Increasing inclusivity in lessons.
 - AI bots being able to give advice to staff on mental health issues so they can intervene early.
 - Providing personalised 'next steps' to help students improve their work?
3. Do we have any early adopters who are already using AI to improve support for SEND pupils?

1. Attainment & Inclusion (Student Use)

1. Are we, as leaders, happy for students to:
 - Use AI to get **real time feedback when working at home** (e.g. Chat GPT: Here's my opening paragraph, can you give me three ideas on how to improve it?)
 - Use AI to get **real time feedback when working in class.**
 - Use AI to complete homework tasks?
 - Use AI to complete art projects?
2. If so, has this been communicated to staff and students?

1. Attainment and Inclusion (AI & Homework)

Secondary only

1. How much do we think students are using AI to help them in their homework?
 - As a school, will we support or discourage the use of AI in homework tasks?
 - What guidance have we given (or will we give) students about using AI in homework tasks?
2. What discussions have staff been having about adjusting homework tasks to be more resilient against AI use?
3. Are staff aware of any AI detection tools (e.g. GPTZero, Copyleaks)?
Have they been using them at all?

2. Staff Workload

1. Are we, as leaders, happy for staff to use AI to:
 - Generate personalised work for a pupil (e.g. if they have a learning difficulty & needed lots of repetition on basic learning that other pupils have secured.)
 - Plan Schemes of Work?
 - Provide SEND strategies (e.g. five tips to support autism in KS2/3)?
 - Moderate student work?
 - Write reports? (Probably NO – until we have got very tight guidance)
 - Write letters?
2. If so, how / when will this be communicated to everyone?

3. The AI Roll Out

1. Who is leading the roll out of AI?
 - What support or release time do they have?
 - Can they access money for training or trainers?
 - When might we expect to see the fruits of their labours making an impact on, for example, inclusion or workload?
 - Have we given strict rules to staff (e.g. don't submit personal data such as children's **names**)?
2. Have we remembered support staff and office staff in our plans? How?
3. Does AI appear in our computing curriculum? If not, what are our plans?

4. Safeguarding

1. Have we had any incidents of students using AI to alter images of students or staff?
 - How can we best deal with any such incidents?
 - What are (or would be) the consequences of such incidents to the victim(s), as well as others who engaged in the creation or sharing?
2. What guidance will we give to students about the consequences of digitally altering images of others in a malicious or harmful way?
3. Do we foresee any changes to any of our policies to reflect any safeguarding risks from AI?
4. Do any groups risk being left behind (e.g. any pupils/families who can't afford enough data to get through the full month?)

Summary

AI has text and image making tools that make long tasks simple.

It's already being used in the education community. The genie is out of the lamp.

It can be used to improve outcomes and reduce workload, but must **never** breach privacy.

You've a 5 step plan.
